GAZEBO

Installation instructions
Shade sail for square gazebos

FOR THE GAZEBOS: **MERANO, BOLZANO, GENOVA AND TRENTO**

ATTACHMENT ON THE DOME

Step 1:
The shade sail is attached to the hook on the dome using the tab provided. It should hang loosely and not be pulled too tight.

Step 2:
The tabs on the shade sail are then secured to the corner posts of the gazebo using the elastic straps.

Step 3:
Finally, the edges of the shade sail are secured to the tabs on the cross-braces using elastic straps, and the sail is tensioned.

FOR THE GAZEBOS: **PALERMO AND TORINO**

ATTACHMENT AT THE TIP

Step 1:
The shade sail is pulled over the roof struts.

Step 2:
There is a small threaded hole on the dome, which is used to screw the shade sail to the dome.

Step 3:
The shade sail is then secured to the tabs on the cross-braces using the elastic straps and tensioned.

CARING FOR YOUR SHADE SAIL
