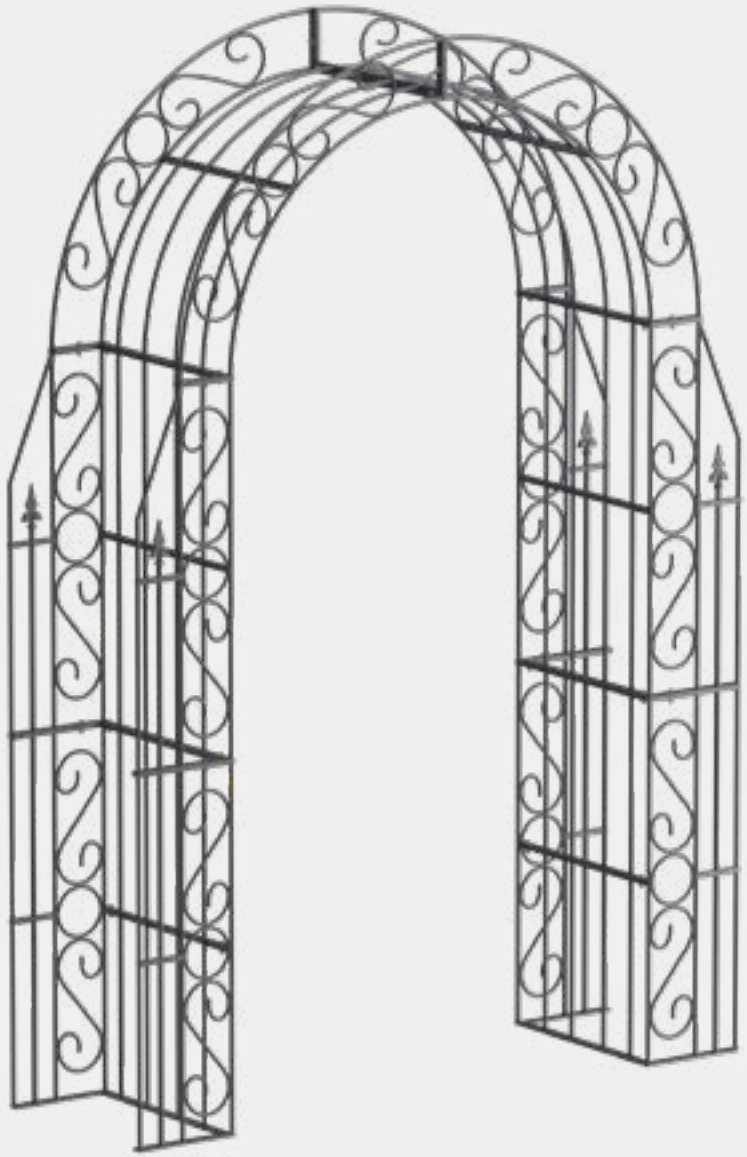
ELEO

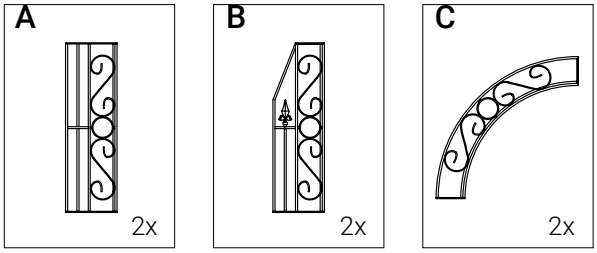


Assembly instructions for Calabria rose arch

THANK YOU FOR CHOOSING AN ELEO 'CALABRIA' ROSE ARCH. WE ARE HAPPY TO ASSIST YOU WITH THE FOLLOWING INSTRUCTIONS FOR ASSEMBLING YOUR NEW ROSE ARCH.

Accessories included with the basic model

2x Element A 'Bottom'
2x Element B 'Middle'
2x Element C 'Top'
16x M8 25 mm screws
32x washers
16x nuts



NOTES

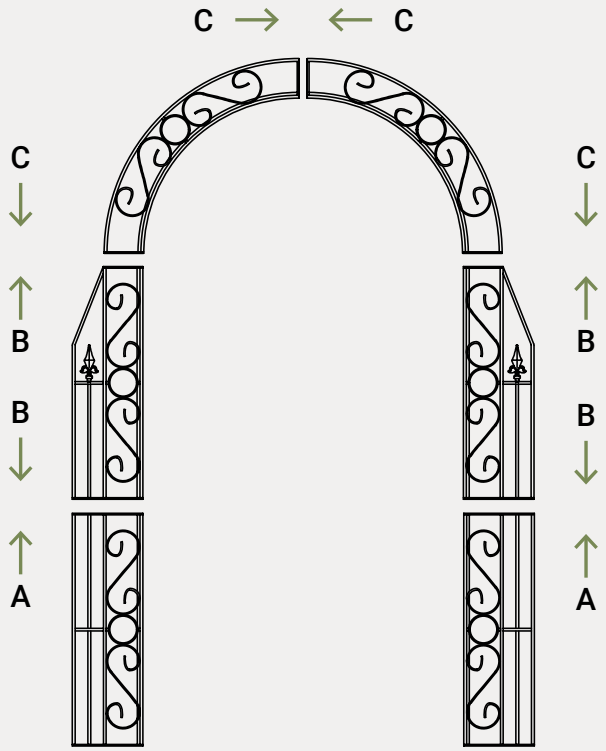
Before assembly, check the delivered goods for correctness and completeness.

Please note that the assembly of the rose arch is at your own risk. In the event of improper or incorrect assembly, we do not accept any liability for damage caused thereby.

When assembling, make sure that the cross struts are on the outside.

Please use 1 screw, 2 washers and 1 nut per screw connection. The first washer is placed over the connecting hole under the screw head. The second washer is placed under the hole over the nut.

There are four holes on each of the lower side elements for attaching the rose arch. The anchoring in the ground depends on your subsoil. Please seek advice on this from your trusted DIY store or specialist retailer. Threaded rods are not included in the scope of delivery.



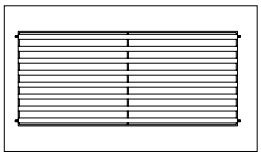
STEP 01
Place the elements on a stable surface as shown in the diagram. First connect the base elements A to element B using 2 screw connections each. Please note the screw connection instructions above.

STEP 02
Now screw elements B and C together.

STEP 03
Close the arc by connecting the elements C to each other.

STEP 04
Anchor the rose arch to the ground using threaded rods.

Accessory installation
Seat bench

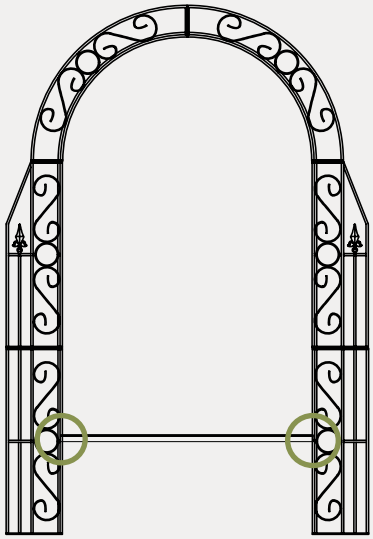


Hang the bench on the lower crossbar of the rose arch.

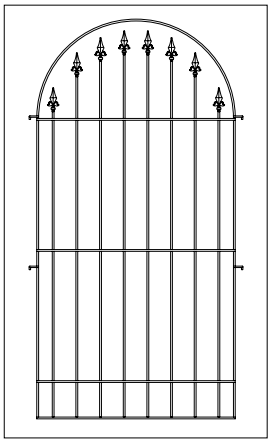
TIPP

You can also attach the bench to one of the upper crossbars, transforming your rose arch into a stable and attractive garden shelf.

The back panel and bench can be combined to create a seat or a garden shelf with a back panel.



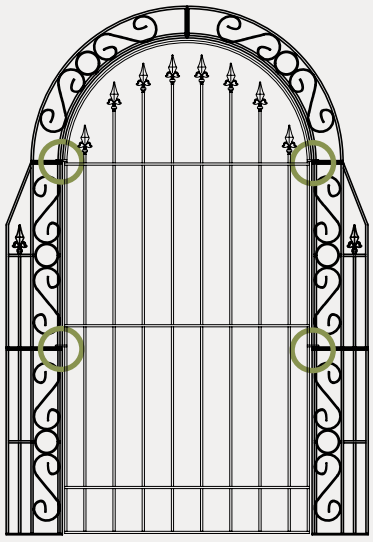
Accessory installation
Back panel



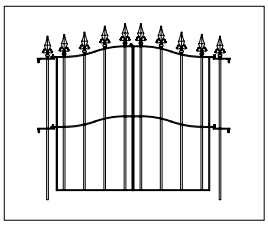
Hang the back panel in the openings between elements A and B and B and C.

TIPP

The back panel and bench for the Calabria rose arch can be combined to create a seat or a garden shelf with a back panel.



Accessory installation
Gate



Hang the gate in the openings on elements A and between elements A and B.
